EXPERIENCE

- **Software Analyst Intern - Rxefy**
Kolkata
Tools and Technologies:ReactJs,Node.js ,HTML,CSS,PostgreSQL,Git,Github, Postman,REST API
April 2023 - July 2023
Rxefy is a healthtech startup that intends to serve physicians and other healthcare professionals. It provides a reliable, user-friendly, economical, and creative application inside a digital environment.
 - Developed a new controller for simulating API interactions to replicate dummy user activity logs.
 - Participated in the reorganization of the product's backend folder structure to enhance code maintainability.
 - Designed and implemented various proof-of-concept projects, such as integrating Redis caching to optimize response times and implementing React Native Crashlytics for error tracking.
 - Conducted periodic manual testing of the project to identify and rectify issues. Engaged in pair programming sessions, fostering collaboration and gaining proficiency in test-driven development (TDD).

PROJECTS

- **Blogify,A MERN Stack Blog Application**
 - Tools and technologies used : React Js,Node Js, Express Js,Mongo DB,JWT , Mongoose, CORS, NodeMailer,Bcrypt Js
 - Developed a MERN stack blog app with key features including user registration/login, JWT token authentication, and CRUD operations for stories.
 - Implemented advanced functionalities like story liking, reading list management, and commenting, enhancing user engagement.
 - Ensured a seamless user experience with responsive design and optimized performance, including skeleton loading effects for improved UI/UX.
- **MYSTERIES**
 - Tools and technologies used : EJS, NODE JS ,EXPRESS JS , MONGODB , BOOTSTRAP AND PASSPORTJS
 - A complete Responsive web app where users can share their secrets anonymously with login and signup functionality
- **Expense Tracker**
 - Tools and technologies used : HTML,CSS AND REACT JS
 - A web application that allows us to manage and track our personal expenses.
 - It has the state management, conditional rendering of components, and Filtration of data. I have designed this app with styled-components.

SKILLS

- **Java, DataStructures and Algorithms, OOPs, SQL, ReactJS, NodeJs, ExpressJS, HTML, CSS, Bootstrap5,Git, Github, MongoDB, REST API**

CERTIFICATE

- The Complete 2022 Web Development Bootcamp by Dr. Angela Yu .
- Become a certified developer from scratch by Eduonix Learning Solutions.
- Object Oriented Programming
