- ▶ Objectives of Project
- ▶ Features & Functionality
- ▶ Technologies Used
- ▶ Modules
- ▶ Project Demonstration
- ▶ Conclusion

The background of the slide is a photograph of an office environment. It shows several people working at their desks. On the left, a woman with curly hair is seen from the back, sitting at a desk with a laptop and a tablet. On the right, a man in a light blue shirt is sitting at a desk, looking at a laptop. In the foreground on the right, a woman with long dark hair is also working at a desk. The desks are equipped with various office supplies like pens, paper, and water bottles. The overall atmosphere is professional and busy.

About Portal

The NOU eGyan Portal is an innovative digital learning platform created by Nalanda Open University (NOU) to provide high-quality educational resources and courses across various disciplines. It offers a user-friendly interface with a comprehensive course catalog, including interactive learning resources such as video lectures, eBooks, and quizzes, all designed to enhance the learning experience. The portal allows for flexible, self-paced learning, making it accessible on multiple devices and enabling students to balance their studies with other commitments. Additionally, the platform provides certification upon course completion, with recognized credentials that can help advance academic and professional careers. Through its integrated support system, including virtual tutoring and technical assistance, the NOU eGyan Portal is dedicated to empowering learners and making education more accessible and effective.

NOU e-Gyan Portal

- The NOU e-Gyan Portal is a LMS (Learning-Management-System)
- It was launched in the year 2020.
- The e-Gyan portal is being designed, developed and maintained by Softpro India Computer Technologies Pvt. Ltd.
- It promotes effective remote-learning.
- It's Motto : "पावका नः सरस्वती "
- 2nd Largest Open University in our Country.

KEY FEATURE 1

- User-friendly and easy-to-access.
- Completely Online-based LMS.

KEY FEATURE 2

- Accessible 24x7, from any part of the world.
- It has an interface of Dashboards, for both Admin & Students.

KEY FEATURE 3

- Provides various forms of learning and materials, like: e-Books, Assignments, Lecture Videos, etc.

Why we need Nou e-Gyan Portal

Access to Digital Resources

Online Learning Support

Convenience and Flexibility

Efficient Communication

Cost-Effective Learning

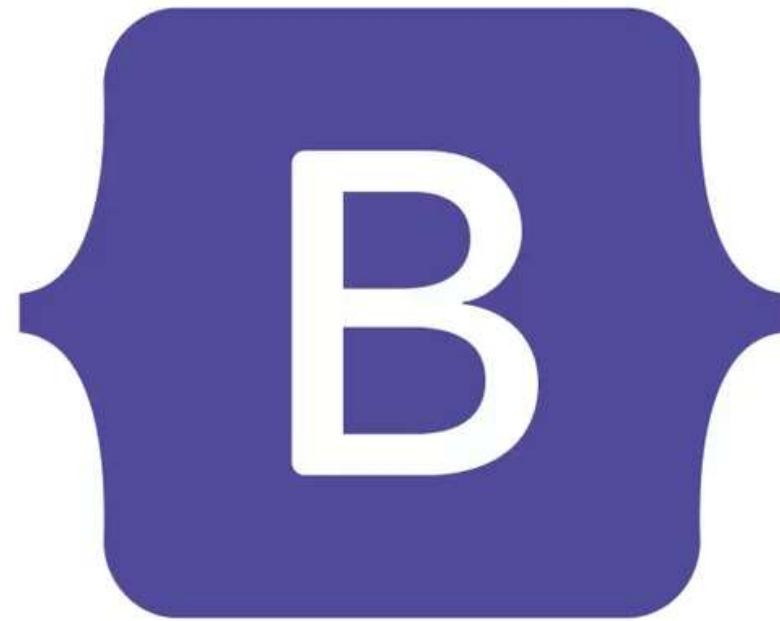

Instant Feedback

MODULES IN OUR PROJECT

- Student Information System
- Login Management System
- Complain Management System
- Feedback Management System
- Enquiry Management
- Study Material Management
- E-mail Integration

TECHNOLOGIES USED

Spring **Boot**

For Frontend : HTML, CSS, JS, JQUERY, BOOTSTRAP

For Backend : Java with Springboot

Editor : Springtool suit

PROJECT DEMONSTRATION

FUTURE SCOPE

Web Server Development: To establish an in-house web server for hosting the NOU e-Gyan portal.

Benefits:

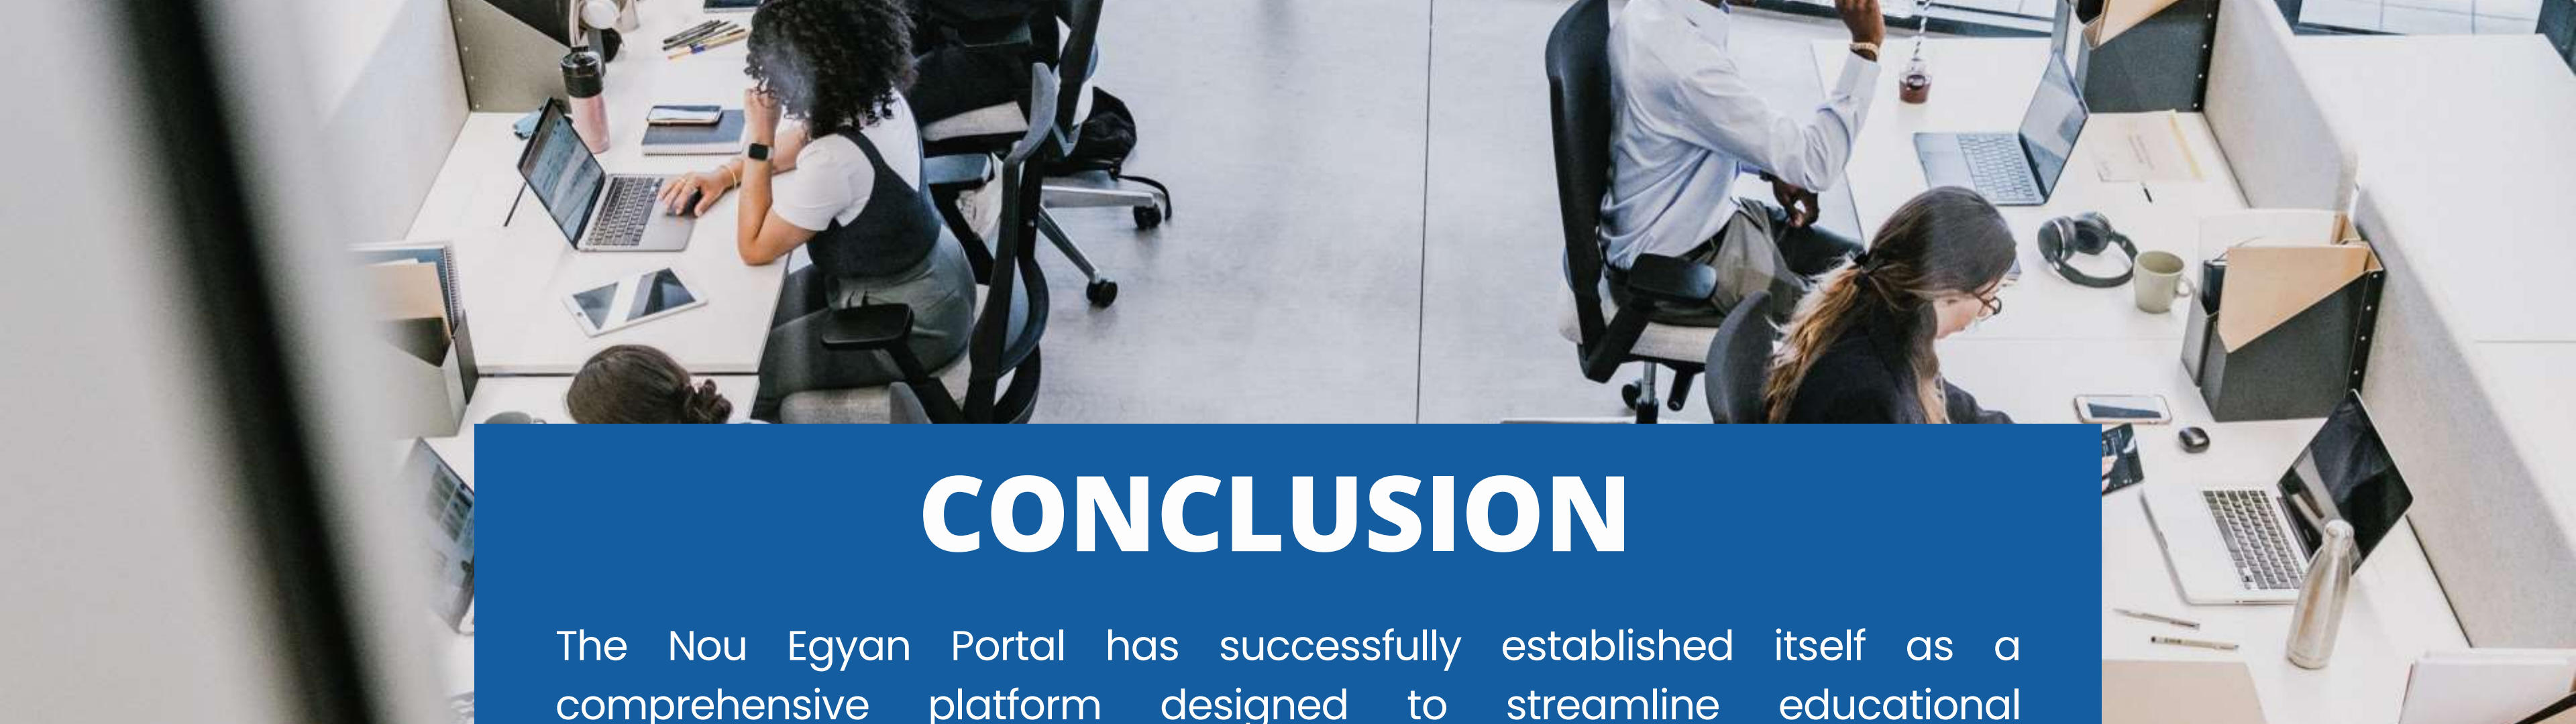

- **Enhanced Control:** Greater control over server management and security.
- **Cost Efficiency:** Potential cost savings on third-party hosting services.

Android Application Development: To create a mobile application for Android devices.

Benefits:

- **Increased Accessibility:** Enables users to access the LMS from mobile devices, improving convenience and flexibility.
- **Enhanced User Experience:** Provides a native app experience with optimized performance and features.

CONCLUSION

The Nou Egyan Portal has successfully established itself as a comprehensive platform designed to streamline educational management and enhance the learning experience. By offering an intuitive dashboard for administrators, it provides easy access to crucial resources such as study materials, assignments, lectures, and feedback. The portal's seamless integration of these features not only simplifies administrative tasks but also fosters a more efficient and engaging educational environment.

THANK YOU
